WHERE	Milano - Firenze - Perugia - Casablanca - Telouet
WHEN	1-11 June 2023
GOALS	<p>The primary goal of the workshop is to identify proposals and ideas for new forms of habitat and settlement in Southern Moroccan villages. Today, these villages are afflicted by the uncritical introduction of dwelling models that are foreign to the historically-established models of settlement and living. In addition, the use of alien building technologies and materials has led to the development of new building forms. However, these recent additions reflect the inhabitants' desire to live in a "modern" manner. And this should not be neglected. From the late 18th century to the middle of the 20th century, the region of Telouet played an important role in Moroccan history, with the Kasbah of Telouet serving as the power centre of the Glaoua tribe. Due to a political scandal involving members of the tribe, the "region of the Glaoua" is currently being neglected. Students are required to draft design proposals that highlight issues and themes and address the urban and architectural needs of these villages and their inhabitants, beginning with a visit to and study of traditional settlements in the region. The villages of Imaouin and Timsal in the rural commune of Telouet will serve as case studies, as they are representative of two contrasting settlement models. Timsal, where the village is constructed after the kasbah, and Imaouin, where the Telouet Kasbah is constructed after and during the construction of the village. Students will be guided through the study of such urban mechanisms, uncovering their meanings, typological and morphological variations, and physical outcomes. The project will serve as an instrument for producing knowledge and cultural content.</p>
ORGANIZED BY	Associazione Culturale NOSTOI
PARTNERS	<p>Ecole d'Architecture et de Paysage de Casablanca (EAC) Politecnico di Milano Scuola AUIC (POLIMI) Università di Firenze Dipartimento di Architettura (DIDA UNIFI) Università di Perugia Dipartimento di Ingegneria Civile e Ambientale (DICA UNIPG)</p>
TEACHERS	<p>Prof. Michele Caja (POLIMI) Prof. Francesco Collotti (DIDA UNIFI) Prof. Maria El Glaoui (EAC) Prof. Martina Landsberger (POLIMI) Prof. Angelo Lorenzi (POLIMI) Prof. Eliana Martinelli (DICA UNIPG) Arch. PhD Cecilia Fumagalli (Associazione Culturale NOSTOI)</p>
PARTICIPANTS	The workshop is open to maximum of 25 students enrolled in Architecture Faculties.
LANGUAGE	English, French, Italian.
CFU	The AUIC School of Politecnico di Milano assigns to its students 4 c.f.u.

APPLICATION AND ENROLLMENT

Students are invited to submit an application form consisting of a single .pdf document (no more than 20 pages in A4 format and no larger than 5 MB) including the following informations:

- one motivational letter (maximum 2000 characters);
- one curriculum vitae et studiorum;
- one portfolio of works.

The application must be sent to infonostoi@gmail.com by January 20, 2023.

A commission composed by the workshop organizers will be responsible for selecting the candidates. The results will be emailed out by January 27th.

Participation in the workshop will be effective upon payment of the participation fee by 10 February 10 2023. The following students in the waiting list will be admitted, if payment is not received.

PROGRAM*

- 20th January 2023: deadline for the submission of applications
- 27th January 2023: notification of acceptance/rejection
- 10th February 2023: deadline for the payment of the participation fee
- 15th May 2023: presentation of the workshop; distribution of the documentation;
- 1st June 2023: meeting at EAC; organisation of the groups and work
- 2nd June 2023: field visits
- 3rd June 2023: research and design activities
- 4rd June 2023: research and design activities
- 5rd June 2023: research and design activities
- 6th June 2023: research and design activities
- 7th June 2023: research and design activities
- 8th June 2023: research and design activities
- 9th June 2023: research and design activities
- 10th June 2023: research and design activities
- 11th June 2023: research and design activities; presentation of the final results.

*The program might be subject to modifications. Any change will be promptly communicated to the participants.

PARTICIPATION FEE

Participation fee is approximately 500€ (the quotation might be subject to small variations - lower or higher - according to the actual number of participants and general expenses).

The fee includes:

- 10 overnight stays in Morocco;
- transfers within Morocco;
- group dinners;
- tickets to monuments and museums;
- guided tours;
- workshop-related documentation.

The fee does not include:

- flights;
- transfers from and to the airports;
- transfers during the free time;
- anything not included in the list "the fee comprises".
